*To qualify for CE and CE+ certification, all company equipment must be fully up-to-date, including those under end-of-life vendor support.

Essentials

Foundation support including remote assistance and Microsoft 365 administration for small teams requiring basic IT management.

Professional

Enhanced security with email protection, and cloud backup for growing businesses with increasing data sensitivity.

Premium

Comprehensive protection featuring advanced threat monitoring, proactive patching, and staff security training for mature organisations.

Premium Plus

Enterprise-grade service including compliance support for organisations with stringent regulatory requirements.

St. Pauls Cathedral

Case Study

Seamless IT support ensuring uninterrupted operations in one of London's most high-profile and historically significant environments, where reliability is paramount.

"CIS delivers prompt, professional service with trusted knowledge we rely on"

— **John Story, Head of IT**
